Town of Billerica WRRF Operator

The Town is looking for applicants for its Water Resource Recovery Facility. Applicants must have a minimum of a Grade 2 MA Wastewater License and must attain a Grade 4 within 1 year after which they would have 2 years to achieve a Grade 6 Combined license. The wastewater plant is state of the art and completely modernized. We are a CoMag Phosphorus Removal System and currently are graded as a Grade 7 facility. Duties will include but not limited to, lab testing, plant rounds, sludge dewatering and cleaning of the grounds and buildings. After the applicant achieves their Grade 6 Combined license they will be required to go onto an on-call rotation. This is a BMEA Union position and it comes with all the benefits that the Union has bargained for. Please send resume and cover letter to Superintendent Jeff Kalmes at jkalmes@town.billerica.ma.us
